International Exhibition
for Mould and Tool Making,
Equipment and Technologies
for Product Manufacture

18–20 June 2024

Crocus Expo IEC, Moscow, Russia

3D-TECH

Specialized exposition
for Additive Technologies
and 3D Printing

rosmould & 3D-TECH

Rosmould & 3D-TECH – International Exhibition for Mould and Tool Making, Equipment and Technologies for Product Manufacture. The exhibition has been conducted in Russia since 2006; since 2010 – together with International Exhibition of Machinery and Materials for Plastics Industry **Rosplast**.

Rosmould includes a specialized exposition **3D-TECH – Additive Technologies and 3D-Printing**, which is the largest exposition of 3D technologies in Russia.

Product groups

Design and product development

Moulds. Die moulds. Stamps

Equipment and tools

Repair and maintenance

3D-TECH – Additive technologies and 3D-printing

420 exhibitors from **12** countries

x 2,5 exposition growth compared to **2022**

82 Russian manufacturers

51% international exhibitors

65% exhibitors took part in the exhibition for the first time

95% exhibitors confirmed their participation in the exhibition in **2024**

Visitors

10 126 unique visitors

+39% visitors' growth compared to **2022**

76 regions of Russia

30 countries

52% visitors came to the exhibition for the first time

95% are satisfied with the results of their visit

96% plan to visit the exhibition in **2024**

89% recommend other specialists of similar business to visit the exhibition

*According to the cumulative data with Rosplast 2023

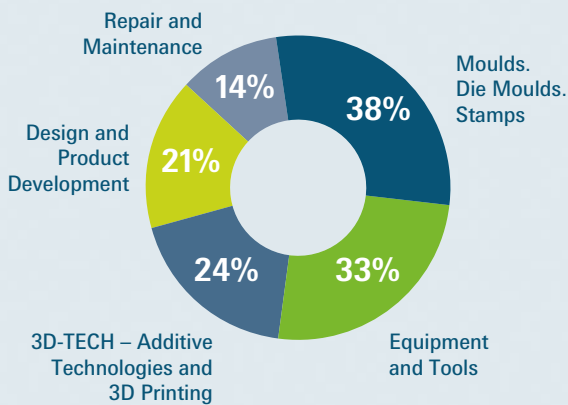

Visitors' Business Sectors

Mechanical engineering and metalworking	14%
Packaging	12%
Consumer goods	10%
Chemical and petrochemical industry	9%
Electronics and electrical engineering	7%
Construction	7%
Automotive	7%
Medical industry	5%
Aerospace industry	4%
Waste processing / Recycling	4%
Defense industry	4%
Energy	3%
Appliances	2%
Research institutes / Educational organizations	2%
Agriculture	2%
Consulting / Services	2%
Shipbuilding	1%
Jewelry industry	1%
Unions / Associations / Professional associations / Media	1%

Position in the company

Division manager / Head of department	27%
Engineer / Designer / Technologist	20%
Owner (co-owner), self-employed	19%
Manager / Marketer / Specialist	15%
Managing director, CEO, Deputy managing director	13%
Student	3%
Freelancer	2%
Non-working	1%

Visitors' interest*

Purpose of visit*

Looking for new suppliers / new business contacts	38%
View / get to know trends, new developments, new products	34%
View / get to know new products, services, solutions for manufacturing and business	32%
Expand specialist knowledge	22%
Develop existing business relations	19%
Conduct purchases	15%
Workshops	8%
Business programme	6%
Personal interest	6%

*Several options were possible

BUSINESS PROGRAMME

3 Conference areas

15 events

90+ speakers

3D-TECH Additive Technologies Forum

Within the framework of the Forum: scientific session, dedicated to the use of additive technologies in medicine

Partners of the scientific session:

Technical conference «Topical issues of design, manufacturing and operation of molding and tooling»

Organizer:

Practical Workshop by Russian Toolmakers Association

Organizer:

WITHIN THE FRAMEWORK OF ROSPLAST 2023:

PlastForum – Plastics and Recycling Industry Forum

Partners of PlastForum:

Within the framework of the Forum: panel discussion «Prospects for the development of cooperation between Iran and Russia in the petrochemical industry»

Conference «Smart Molding Russia / Blow Molding & CAPS»

Organizer:

EXHIBITORS' FEEDBACK

Nikolay Koshelev
General director,
IMID

So many clients, such interest! Production of moulds is the top of the pyramid in the field of machine tool industry, metalworking. These are exhibitions like Rosmould that bring tremendous benefits to the development of the industry in the country.

Nikita Kuznetsov
Project director of Advanced manufacturing technologies cluster, Skolkovo Foundation

This year Rosmould already occupies 2 halls. We see a large flow of visitors, where a large percentage is presented by people who are interested in the development of 3D printing technology at their enterprises.

Vyacheslav Bakhtiarov
Director of development,
New Form LLC

The main message of this exhibition is to completely localize production and make it in Russia. Next year we are planning to make our pavilion two times larger.

Ashkhen Ovsepyan
Founder of a group
of companies, SIU System

We really liked the exhibition this year: it has become much larger; we see real customers. Rosmould is a flagship exhibition specialized in 3D technologies.

Sergey Sidyakin
Director of marketing,
FORSH JSC

Rosmould exhibition invariably pleases us from year to year with the number of visitors and the improving quality of the customers. Rosmould helps a lot as a platform for negotiations and new contacts.
